Professional Summary

Microsoft-certified Azure Data Engineer with **4+ years** of expertise in designing and optimizing scalable data ecosystems using **Azure Data Factory, Azure Synapse, Databricks, SQL, and PySpark**. Experienced in designing data lake architectures, implementing Delta Live Tables (DLT), and developing interactive AI/BI Dashboards to drive business insights. Proficient in cloud data warehousing and CI/CD automation. Adept at bridging the gap between technical complexity and business strategy to deliver high-impact analytics solutions.

Technical Skills

Cloud: Azure Databricks, Apache Spark, PySpark, Delta Lake, Azure Data Factory (ADF), Azure Synapse Analytics, Azure Data Lake Storage (ADLS), Hadoop

Languages: Python, SQL (T-SQL), Scala

ETL & Orchestration: Delta Live Tables (DLT), Databricks Jobs, Azure Logic Apps

DevOps & Tools: Azure DevOps, Git, CI/CD Pipelines

Visualization: Databricks AI/BI Dashboards, Azure Monitor

Professional Experience

Telefonica Tech | Data Engineer | Pune, Maharashtra, India

Jan 2023 – Present

- **End-to-End Pipeline Development:** Designed and deployed scalable Delta Live Tables (DLT) pipelines to automate data ingestion and transformation, reducing data latency and improving data quality.
- **ETL Orchestration:** Architected and managed complex ETL workflows using Databricks Jobs, ensuring reliable daily data processing for critical business reporting.
- **Analytics & Visualization:** Developed and maintained interactive AI/BI Dashboards within Databricks, providing stakeholders with real-time visibility into key performance metrics.
- **Data Integration:** Engineered robust data pipelines across four business domains utilizing Azure Data Factory, ADLS Gen2, and Azure SQL Database.
- **Performance Optimization:** Optimized PySpark and SQL queries for large-scale datasets, significantly reducing processing time and compute costs.
- **DevOps Implementation:** Implemented CI/CD pipelines using Azure DevOps for automated code deployment, version control, and seamless environment promotion.
- **Data Governance:** Collaborated on data governance initiatives to ensure strict compliance with security and privacy standards (GDPR).

Avaya | Data Engineer | Pune, Maharashtra, India

Jul 2021 – Jul 2022

- **Product Testing & Compatibility:** Conducted rigorous compatibility testing of Microsoft Azure Synapse with Avaya products as part of a Proof of Concept (POC) team.
- **Data Architecture:** Utilized Azure Data Lake Storage (ADLS) for scalable storage and built efficient ELT pipelines using Python and Scala.
- **Data Warehousing:** Performed advanced data modeling and management using Dedicated SQL Pools in Azure Synapse Analytics for high-performance OLAP workloads.

Achievements

- **Client Appreciation:** Recognized for delivering reliable, high-quality data engineering solutions that improved data accuracy and business outcomes.

Education

M.Tech in Data Science & Analytics — MIT World Peace University, Pune

CGPA: 8.0/10

Aug 2019 – May 2021

B.Tech in Computer Engineering — UVPCE, Ganpat University

CGPA: 7.0/10

Jul 2015 – Jun 2019

Certifications

Microsoft Certified: Azure AI Fundamentals (AI-900)

Microsoft Certified: Azure Data Fundamentals (DP-900)

Microsoft Certified: Azure Fundamentals (AZ-900)

Personal Details

Date of Birth: 11 December 1997

Languages: English, Hindi, Gujarati
